WHERE TIME SLOWS DOWN
AND STORIES BEGIN

ABOUT WHISTLER'S KNOLL

A place where time slows down...

Set among rolling vines and open sky, Whistler's Knoll is a setting designed for moments that matter.

This is not a blank slate — it's a place with character, history, and a quiet sense of intention. A place where celebrations unfold naturally, where guests linger a little longer, and where every detail feels considered without ever feeling overdone. From intimate ceremonies to full-property gatherings, each wedding is shaped by the land, the season, and the people at the center of it

Sunlight through the vineyard. Long tables under open air. Evenings that transition effortlessly from golden hour to candlelight.

Our approach is simple: fewer distractions, more meaning

GRAPEVINE PAVILION WK

An open-air setting designed for celebration, the Grapevine Pavilion hosts up to 200 guests with sweeping vineyard views in every direction. As the sun sets behind the vines, the entire space is washed in warm light — creating a naturally stunning backdrop for both ceremony and reception.

Overhead string lighting adds a soft glow into the evening, while integrated space for live music or a DJ keeps the energy flowing seamlessly throughout the night. Drop-down enclosures and heaters allow for comfort in changing weather, making the space both beautiful and functional across the season.

THE MAIN BARN

The heart of Whistler's Knoll. Originally built in the 1800s, the barn offers an intimate, character-rich setting for gatherings of up to 50 guests.

Inside, exposed wood beams, warm textures, and soft lighting create a space that feels both timeless and inviting — equally suited for quiet dinners, meaningful toasts, and lively celebrations.

Large doors open to the surrounding patio and gardens, allowing the beauty of the vineyard to flow naturally into the experience. As evening sets in, the barn transforms — glowing with warmth, energy, and the unmistakable feeling of a night you won't want to end.
